Sun Condition Verification Note

PROPERTY DETAILS

Address Bygdoy alle 30, Oslo
Facade S
Month July
Analysed 6 May 2026

VERDICT: CONSISTENT

EXPLANATION

The lighting shown in the image is consistent with what a S-facing facade can receive in July. No geometric inconsistency detected.

SOLAR CALCULATION SUMMARY

S-facing facade gets excellent sun in July (8h/day). Sun from 09:00 to 17:00.

DISCLAIMER

This document is a compliance-support note, not legal advice. The verdict is generated by an AI model analysing a single photograph and deterministic solar geometry calculations. Results depend on the accuracy of the provided address, facade orientation, and image quality. SunProof AI does not guarantee correctness and accepts no liability.
